

RAJENDRA NIRAULA

Name of Expert: Rajendra Niraula

Date of Birth: 13 September, 1967

Citizenship: Nepalese

Education: Ph.D., Kochi University of Technology, Japan, 2006

Bachelor's Degree in Civil Engineering, Tribhuvan University, Institute of Engineering, Nepal, 1994

Membership of Professional Associations: Nepal Engineering Council (Regd. 169 Civil)
Life Member, Nepal Engineers' Association
Member, Japan Society of Civil Engineers (JSCE)
A.Member, American Society of Civil Engineers (ASCE)
Nepal Council of Arbitration (NEPCA) – Life member

Other Training:

- “International Arbitration” 2-15 Dec 2010 (inhouse training); Pegasus Global Holdings, Inc., Cle Elum, WA, USA
- “Developing Code of Ethics for Engineering Practice and Addressing Corruption in Engineering and Construction Industry”, organized by Global Infrastructure Anti Corruption Center (GIACC) Forum, 11 August 2010, Sydney, Australia.
- “Contract Management and Dispute Resolution: Procedures and Practices”, 30 Sept – 15 Oct 2009 (inhouse training), Pegasus Global Holdings, Inc., Cle Elum, WA, USA
- ‘Contract Administration for International Construction Projects in Asia’; 27 Jul – 8 Aug 2009; Japan International Cooperation Agency (JICA), Tokyo, Japan
- “Revamping Public Private Partnerships (PPPs)”, 28 February 2009, Center for Infrastructure & Construction Industry Development of The University of Hong Kong, Hong Kong.
- ‘Project Management and Control’, 1-15 Oct. 2008 (inhouse training), Pegasus Global Holdings, Inc., Cle Elum, WA, USA
- ‘Contract Administration for International Construction Projects in Asia’ 29 Jul – 7 Aug 2008; Japan International Cooperation Agency (JICA), Tokyo, Japan
- ‘Practical Applications of Construction Technology’, Japan International Cooperation Agency (JICA), Tokyo, Japan, May-June 2002 (6 weeks)
- ‘Contract Administration for International Construction Projects in Asia’ Japan International Cooperation Agency (JICA), Tokyo, Japan, Aug-Sept 2007 (2 weeks)

Countries of Work Experience: Nepal, Japan, Cambodia, Mongolia, Viet Nam, Sri Lanka

Employment Record:

From: April 2009 **To** to-date

Employer: Various (Governmental and Non Governmental Organizations) agencies

Position Held: Consultant Engineer/Procurement Specialist/ Contract Management and Administration Specialist / Researcher/Trainer

From: April 2006 **To** March 2009

Employer: Kochi University of Technology, Japan
Position Held: Research Associate/Post-doctoral

From: April 2003 **To** March 2006
Employer: Kochi University of Technology, Japan
Position Held: Research Assistant

From: April 2001 **To** March 2003
Employer: Ministry of Physical Planning and Works, Nepal
Position Held: Engineer

From: March 1995 **To** March 2001
Employer: Department of Irrigation, Ministry of Water Resources, Nepal
Position Held: Engineer

From: July 1994 **To** March 1995
Employer: M/S Shah Associates Pvt. Ltd., Nepal
Position Held: Engineer

Work Undertaken that Best Illustrates Capability to Handle the proposed Tasks

Name of assignment or project: - 7437 (REG) : Asia Pacific Procurement Partnership Initiative
Year: Sep 2011 to date (intermittent)

Location: Nepal

Client: Asian Development Bank

Main project features: Enhance capacity of GON employees and bidding community on procurement through training; develop training module and materials; assist in conducting training.

Positions held: Procurement Training Specialist

Activities performed/Responsibility: Design training module for procurement of works, goods and services, prepare training materials for training, assist in conducting trainings, design training module for E-bidding, provide inputs to enhance procurement capacity of GON employee and bidding community.

Name of assignment or project: - Enhanced Vocational Education and Training (EVENT), Ministry of Education

Year: November 2011 to date (intermittent)

Location: Nepal

Client: EVENT, Ministry of Education

Main project features: EVENT is a project being implemented by the Ministry of Education, Government of Nepal, under World Bank financing, to expand the supply of skilled and employable labor in Nepal. The Project Objective is to expand the supply of skilled and employable labor by increasing access to quality training programs, and by strengthening the technical and vocational education and training system in Nepal. The project consists of the following four components: (1) Strengthening Technical Education and Vocational Training (TEVT) Regulatory Activities and Capacity Building; (2) Strengthening Technical Education; (3) Support for Short-Term Training and Recognition of Prior Learning; and (4) Project Management and Monitoring and Evaluation.

Positions held: Procurement Training Specialist

Activities performed/Responsibility: Prepare procurement documents: Bidding Documents, Contracts, Specifications, EOI forms, RFP for procuring goods, services. Assist the client evaluation of the bids. Assist the client in Contract administration for the contracts implemented under it.

<p>Name of assignment or project: The High Power Committee for Integrated Development of Bagmati Civilization, Government of Nepal</p> <p>Year: Feb 2011 to date (Sep 2011 to date – Intermittent)</p> <p>Location: Nepal</p> <p>Client: The High Power Committee for Integrated Development of Bagmati Civilization, Government of Nepal</p> <p>Main project features: The High Power Committee for Integrated Development of Bagmati Civilization, Government of Nepal is implementing Bagmati Area Infrastructure Development Project (BAIDP) to improve and reinstate the environment of Bagmati River and its tributaries within Kathmandu valley and up-to Katuwal Daha. The objective of the project is to improve environment and well-being of urban residents in the capital city with giving high priority to restoration and preservation of its rich cultural heritage.</p> <p>Positions held: Procurement Specialist</p> <p>Activities performed: Leading the team to provide project management services to the client. Prepare procurement documents: Bidding Documents, Contracts, Specifications, EOI forms, RFP for procuring goods, works and services. Review of design, cost estimate and specifications for River control structures, drainage structures, Sewage works, Road works, Building Works, etc. Advise in establishing E-bidding system. Design training module for e-bidding training for client's employee. Contract administration for civil works and services contracts. Evaluate contractor's claims.</p>
<p>Name of assignment or project: Sikta Irrigation Project</p> <p>Year: April 2010 to Feb 2011</p> <p>Location: Nepal</p> <p>Client: Department of Irrigation</p> <p>Main project features: Perennial water source of West Rapti River; command area 34,00 ha on right bank and 1800 ha on left bank; water diversion of 62.5 cumecs on to right main canal etc.</p> <p>Positions held: Procurement and Contract Management Specialist</p> <p>Activities performed: Prepare bidding documents and RFPs for procurement goods, works (based on FIDIC 1987/1999/GON) and services. Review of Cost estimate, Specifications for Road works, Bridge works, Irrigation works, River protection works, etc. Administer the civil works contracts based on FIDIC 1987/1999 and GON contracts and other goods and consultants services contracts. Review of Contractor's progress. Evaluation of contractor's claims; prepare agreement and procedures for Dispute Review Board. Prepare claim/counterclaim and defense statement for Arbitration.</p>
<p>Name of Assignment: Highland Mountain Agribusiness and Livelihood Project-ADB PPTA 7298-NEP</p> <p>Year: June-August 2010</p> <p>Location: Nepal</p> <p>Client: Ministry of Agriculture and Cooperatives/Asian Development Bank</p> <p>Main Project Features: rural infrastructure, agribusiness, livelihood etc</p> <p>Positions Held: Procurement Specialist</p> <p>Activities Performed: Review GON and ADB procurement procedures relevant to the investment project requirements; project cost review and prepare procurement packages for all items including that of civil works to be procured in the investment project, according to ADB and GON procedures; prepare procurement-related of the Project Administration Manual (PAM); prepare procurement/tender documents including general and specific conditions of contract for procuring goods, works and services.</p>

<p>Name of assignment or project: Headworks and Diversion Tunnel Construction Year: April 2009 to March 2010 Location: Nepal Client: China Railway 15 Bureau Corporation Main project features: The Melamchi Water Supply Project (MWSP) is an inter basin water supply project which supplies water from snow fed Melamchi river to the Kathmandu valley. Project components are; Headworks and diversion tunnel construction, infrastructure development (melamchi Diverion, water treatment plant, bulk distribution system, waster water system improvement), social and environmental support, Institutional Reforms , and Project Implementation Support Positions held: Procurement and Contract Administration Specialist Activities performed: Prepare procurement plan and procure goods and works; administer the contract under FIDIC MDB 2006, prepare progress reports, interim payment statements, claims/counter claims; ensure the compliance with the contract.</p>
<p>Name of assignment or project: Updating the Sector/National Fiduciary Risk Assessment (FRA) Year: Jan 2009; May-June 2009; Jan- March 2010, Feb-July 2011, Sep-Dec 2011 Location: Nepal Client: DFID Nepal Main project features: Assessment of overall performance of DFID assistance in Health, Nepal Peace Trust Fund, Education and Rural Reconstruction and Rehabilitation Sector Development, Multi Sector Forestry Management. Positions held: National Procurement Consultant Activities performed: Evaluate the procurement system and procedures followed by the executing agencies under the DFID assisted projects. Recommendation for improving procurement system in Nepal. Assessment of project implementation cycle and budget cycle. Identify the key fiduciary risks and corruption risks and their monitoring plan. Evaluate the output of the project;</p>
<p>Name of assignment or project: Irrigation and Water Resource Management Project (IWRMP), Year: May to Jun 2009 Location: Nepal Client: Department of Irrigation (DOI) Main project features: improve irrigation service delivery; enhance sustainability and productivity of selected irrigation systems through(a) irrigation infrastructure development and improvement; (b) completion and of irrigation management transfer reforms; and (c) institutional and policy support for better water management and productivity Positions held: National Procurement Consultant Activities performed: Advise the IWRMP on Procurement of works, services and goods, Project Implementation, Claim quantification and analysis, Schedule preparation and analysis, use of MS Project for schedule preparation and analysis, etc., and provide training to the staff on Procurement and Contract administration including scheduling preparation and analysis, claim quantification, project performance measurement by using project management software</p>

Name of assignment or project: Various (Governmental and Non Governmental Organizations, Donor Agencies)

Year: April 2009 – to-date

Location: Nepal, Cambodia, Japan, Sri Lanka, Viet Nam

Client: Various

Main project features:

Positions held: Consultant Engineer/Procurement Specialist/ Contract Management and Administration Specialist/ Researcher/ Trainer

Activities performed: Responsible for;

- Worked as International Contract Management Expert: Involved in capacity building program on “Contract Management” for National Water and Sanitation Board, Sri Lanka; Design and develop training materials and deliver lectures on “Contract Administration for International Construction Project, Application of CPM in project scheduling and dispute settlement in FIDIC contracts, Project Scheduling: Preparation, Liability and Claims by using MS Project.”, Training conducted on 31 Oct- 6 Nov 2011, Colombo, Sri Lanka; Funded by JICA
- Worked as International Project Management Expert: Design and develop training materials and deliver lectures on “Project Management Systems, Claim applications under FIDIC contracts, Application of CPM in project scheduling and dispute settlement, Project Scheduling: Preparation, Liability and Claims, Project planning by using Primavera P5.”, Training conducted on 8-10 Oct 2011, Kochi, Japan
- Procurement Training Expert: Designed a training program on “Procurement and Quality Control” for Department of Roads Engineers; Training conducted on 7-10 June 2011, Kathmandu, Nepal.
- International Project Management Expert: designed a special course and delivered lectures on “International Construction and Project Management” Training conducted on 2-7 May 2011, Phnom Penh, Cambodia.
- Worked as International Project Management Expert: Design and develop training materials and deliver lectures on “Project Management Systems, Project Scheduling: Preparation, Liability and Claims, Project planning by using Primavera P5.”, Training conducted on 9-11 Oct 2010, Kochi, Japan
- Trainer for training on “Contract Administration, Project management”,: delivered lectures in the training on “contract administration for international construction project in Asia”, Kochi, Japan; Training conducted on 28 July – 6 Aug 2010; conducted by JICA
- International Project management expert: designed a special course and delivered lectures on “International Construction and Project Management” Course conducted on 29 April- 5 May 2010, Phnom Penh, Cambodia.
- Trainer for training on “Contract Administration, Project management”,: delivered lectures in the training on “contract administration for international construction project in Asia”, Tokyo, Japan; March 2010; conducted by JICA
- Trainer for training on “Contract Administration for International Construction projects in Viet Nam”,: delivered lectures in the training on “contract administration for international construction project in Viet Nam, Hanoi, Hai Phong, December 2009, conducted by JICA Viet Nam
- Trainer for training on “Contract Administration”, Project management, etc.: delivered lectures in the training on “contract administration for international construction project in Asia, Tokyo, July-Aug 2009, conducted by JICA
- Develop training materials on Procurement, Contract Administration, Project Management, Construction Management
- Conduct research on Procurement, Construction and Project management

<p>Name of assignment or project: Various Assignments under Kochi University of Technology Year: Apr 2006 – March 2009 Location : Japan Client: Various Main project features: Capacity development and technical knowledge transfer on construction and project management including procurement, contract administration, construction technology etc. in developing countries Position Held: Research Associate/Post-doctoral Activities performed: Responsible for;</p> <ul style="list-style-type: none"> • Worked as a trainer, instructor and researcher on Construction and Project Management • Delivering lectures on construction and project management including Procurement of work/goods/services, contract management/administration, FIDIC Rainbow series including MDB harmonised edition, cost control, schedule preparation /analysis /control using MS Project/Primavera/OpenProj, Claim applications and evaluation, claim/dispute management, etc. in training programs, seminars and in universities. • Involved in several projects for capacity development and technical transfer in developing countries such as Capacity building on construction and project management and technical transfer on concrete technology in Cambodia and Mongolia; some of the major activities performed are: • Designed and delivered lectures on “Project scheduling and control, quantitative claim analysis/evaluation, claim settlement process in international construction projects” in a training on Contract Administration for International Construction Project in Asia, organized by JICA/JBIC, Tokyo, Japan; 27 July – 6 August 2008
<ul style="list-style-type: none"> • Designed a training module and delivered lectures on “FIDIC conditions of contract (Rainbow series and MDB harmonised), Claim applications and Evaluation in construction project, dispute settlement methods and practices in construction, etc.” in a training program on “Contract administration for Construction projects” on 12-14 January 2008 in Ulaanbaatar, Mongolia • Designed an extensive course on “Construction and Project Management” and delivered lectures on Procurement, Conditions of Contract, contract management/administration, time and cost management, planning and scheduling, claim/dispute management, arbitration, international practice of dispute settlement, etc.” on 2-16 October 2007 at Mongolian University of Science and Technology, , Ulaanbaatar, Mongolia • Designed and delivered lectures on “Project scheduling and control, quantitative claim analysis/evaluation, claim settlement process under FIDIC contracts” in a training on Contract Administration for International Construction Project in Asia, organized by JICA/JBIC, Tokyo, Japan; 26 Aug – 6 Sep 2007 • Designed a seminar on “Construction management systems and planning of infrastructures” and delivered lectures on Project delivery systems and FIDIC & MDBs harmonised conditions of contract and conditions of contract in JBIC funding on 8 June 2007, Ulaanbaatar, Mongolia. • Delivered a lecture on “Contract Administration and Functions of the Engineer under FIDIC Conditions of Contract” at Institute of Technology of Cambodia (ITC), Phnom Penh, Cambodia; 20 June 2008 • Designed and organize a seminar on “technology and management for Cambodian infrastructure development and rehabilitation” and delivered lectures on “Alternative Project Delivery Systems for improving performance of construction industry in least developed countries” 15 Dec 2006, Phnom Penh, Cambodia; • Delivered a lecture on “Claim Application and Evaluation in International Construction projects” at Nepal College of Information Technology, Lalitpur, Nepal; 4 June 2008. • Involved in designing and preparing a training program and course materials for “Contract Administration for International Construction Projects in Asia” in which I am still involved and updating the courses and delivering lectures. The JBIC (Japan Bank for International Cooperation) had awarded the project to Kochi University of Technology, Japan. <p>Conduct research on public works management, contract administration and management including claim and dispute management system, project control, etc. in Japan and developing countries.</p>

Name of assignment or project: Various Assignments under Kochi University of Technology

Year: Apr 2003 -Mar 2006

Location: Japan

Client: Various

Main project features: Investigate infrastructure and human resources development system in developing countries and develop a system for technical knowledge transfer and human resource development required for infrastructure development in developing countries

Positions held: Research Assistant

Activities performed:

- recommended an integrated system for infrastructure and human resources & technology development in developing countries
- investigated the construction and project management system including procurement, contract administration in Nepal, Cambodia and Japan
- Used MS Project, Primavera and MS Office suite for CPM scheduling, delay analysis, monitoring project progress, claim analysis, etc.
- analyzed Infrastructure development system and impacts of Japan's official development assistance projects,
- analyzed the human resources including civil engineering education & technology development system including training content in construction industry in Nepal, Cambodia and Japan and training conducted by JICA.
- Researched construction management system in, Dam/building construction projects in Japan, building/road/bridge construction projects in Cambodia, roads/bridge/irrigation/building construction projects in Nepal, in three gorge dam project in China

Name of assignment or project: Various Assignment under Ministry of Physical Planning and Works

Year: April 2001 – March 2003

Location: Nepal

Client: MOPPW

Main project features: Prepare public works directives (PWDs), Technical Audit guidelines

Positions held: Engineer

Activities performed: Responsible for;

- Worked as an engineer and reviewer in preparing Public Procurement Documents called Public Works Directives (PWDs) which includes Standard Bidding Documents for Works, goods and Services, organizational and Procedural directives; Organizational and Procedural directives for the development works in Nepal,
- Worked as a reviewer in preparing technical audit standards and procedures for infrastructure development works,
- Worked as an evaluator in various tender (technical and financial) evaluation committees,
- Worked as an engineer in establishing the Roads Board Nepal and in preparing rules and regulation for the board.
- prepared contractor selections criteria in housing and infrastructure development projects under the ministry,
- Prepared Terms of References (TOR) for feasibility study of new project and technical audit for ongoing and completed projects.
- Prepared annual program and budget for the foreign cooperation and quality control division, Technical assistances & loan required for the ministry.
- Worked as a reviewer in finalizing the project proposal for development project.

<p>Name of assignment or project: Various Assignment under Department of Irrigation Year: March 1995 – March 2001 Location: Nepal Client: Department of Irrigation Main project features: Irrigation/Drainage/River protection planning, development and management procurement of works, goods and services Positions held: Engineer Activities performed: Responsible for;</p> <ul style="list-style-type: none"> • Worked as procurement engineer and Contract management/contract administrator for the second largest irrigation and local road network development project in Nepal (Bagmati Irrigation Project), annual construction budget was about 8m US\$. • Prepared tender/contract document (based on FIDIC, ADB, WB/, Saudi Fund for Development (SFD) & Government of Nepal) and specifications for Irrigation, Road/Bridges, River training, Drainage structure and Building Projects while working in District Irrigation Offices and Bagmati Irrigation project • Prepared tender/contract document for procuring goods and consulting services and specifications for goods. • Prepared contractor and consultant selection/evaluation criteria and worked as an engineer in tender (technical & financial) evaluation and contract award committee. • Prepared loan proposal, annual/rolling program and budget, Progress reporting, and coordinating the stakeholders including the donors in irrigation and infrastructure development; • Prepared construction planning, cash flow and annual budget required to execute the multiple construction projects • Used MS Project, MS Office suite, Auto CAD in preparing construction schedule, cash flow, change/variation management, annual budget, project estimate, project progress & completion report, etc. • Conducted training program for user groups, local politicians/leaders on program development, monitoring, supervising construction works, etc. and worked as a resource person for the training, • Performed survey, feasibility study of various irrigation, river protection and road network development projects • Design and construction supervision irrigation systems including barrage, weir, head-regulator, distribution system, canal networks, drainage structures [project value 15m – 70m NRS (0.21m-1m US\$)]; • Design and construction supervision river training structures such as spurs, slope protection, retaining structures [project value 10m – 50m NRS (0.14m-0.71m US\$)], • Design and construction supervision road network, bridges and culverts [project value 10 m – 25 m NRS (0.14m-0.36m US\$)]
<p>Name of assignment or project: Various Assignments under Shah Associates Pvt. Ltd Year: July 1994 – March 1995 Location: Nepal Client: Various Main project features: Design, estimate, selection of contractor, preparation tender/contract document, construction supervision of residential, school, commercial building Positions held: Engineer Activities performed:</p> <ul style="list-style-type: none"> • Structural design, cost estimation of residential, schools and commercial buildings. • Prepared tender/contract document, selection of contractors, construction planning and evaluation of contractor performance, Project values ranged from 3 to 25 million NRS (0.04m-0.36m US\$). • Worked as Contract administrator and construction supervisor for building construction projects (project value 0.04m-0.36m US\$) • Prepared construction schedule, cash flow, change/variation management, project estimate, project progress & completion report, etc
